Unflinching Quality & Attention to Detail

Redefining Craftsmanship & Performance

Combining Power with World Class Energy Efficiency

Experience the Ultimate

THE ULTIMATE HYDROTHERAPY MACHINE

HELIX™ JETS: A NEW SPIN ON SPA JETS

The Island Class utilises Artesian's **revolutionary** patented Helix™ jets to provide the best possible hydrotherapy massage available. This can be combined with our unique Neck and Foot Blasters to provide a full head to toe massage. You even have the option of adding **MicroSilk Technology** to your spa, providing the ultimate hydrotherapy experience.

This superior jet, aptly named the Helix™, has been designed to provide a truly remarkable hydro-massage exclusive to Artesian Spas. Engineered from the concept of the double helix, the jets use a right-directional spiral on the inside of the cylinder. This causes water to spiral out in a twisting manner, providing jet pulsation and great massaging pressure. As a complete system, these jets provide the very best in hydro-massage.

ProHelix™ Jets

Large rotary Helix jets providing a high volume of water to massage large muscles in the body. The jets can be set to provide a large or small sweeping massage that relaxes tense muscles.

TheraHelix™ Jets

Midsize Helix jets, strategically placed in small groups to massage muscles such as calf, hamstring, deltoids, and triceps. These jets provide a therapeutic massage to areas of the body where you need it most.

AccuHelix™ Jets

Small directional Helix jets placed in large groupings to massage larger regions of the body. These jets drive into muscles with pin point accuracy in a corkscrew manner giving a powerful massage.

Neck & Foot Blasters

Extremely powerful large jets with several outlets providing multiple blasts of water to effectively massage the shoulder / neck region and feet.

SKIN REJUVENATION WITH MICROSILK®.

Use MicroSilk for 20 minutes a day to make you feel better and look younger. With a push of a button, your Island Spa quickly starts to fill with MicroSilk that blankets your entire body with billions of oxygen-rich micro bubbles, giving your skin a luxuriously silky feeling whilst moisturising and cleansing at the same time. The Micro bubbles are smaller in size than pores on the skin, allowing the bubbles to enter and lift away any impurities, whilst plumping, hydrating and reducing fine lines and wrinkles. Bathing in oxygen-rich water is good for your health, increasing the oxygen levels up to 70%, and improving collagen production.

MICROSILK BENEFITS:

- Increased Hydration - Increased oxygen results in cellular respiration.
- Enhanced Skin Cell Growth Reducing Fine Lines and Wrinkles - Oxygen improves collagen strength.
- Therapeutic Levels of Anions - Shown to reduce scars & reduce skin irritations as well as providing a relaxing sense of well-being.

At Artesian, we ensure you get the best possible value by producing the highest quality spas available today. From fantastic build quality and green technology to the wonderful hydrotherapy and ambience enhancing features, Island Class spas provide more as standard.

24 HR WHISPERPURE™ CIRCULATION SYSTEM

The amazing 30 G.P.M. at 0.6 amp super high-efficiency pump circulates all the water in the spa up to 100 times per day. With silent pump technology, it is so quiet you won't believe it's working as hard as it does.

FULL FOAM INSULATION

The space between the maintenance-free cabinet and the structure is filled with high-insulation foam. Combined with our heavy-duty spa cover, this works to ensure the best rate of heat retention available in any spa. Full-foam also dramatically increases the lifespan of the plumbing by virtually eliminating movement and vibration.

INSULATING SAFETY COVER

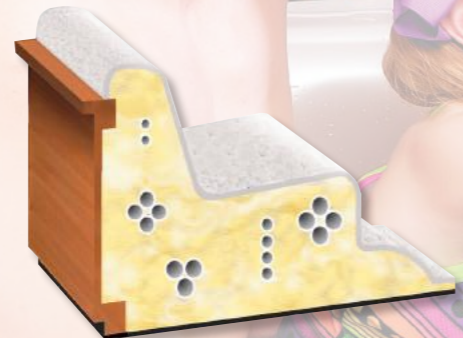

The Island Class luxury safety cover is tapered from 4.5" to 2.5" providing a thick insulating barrier for ultimate spa heat retention.

ISLAND SPA MICRON FILTER

The Island spa disposable micron filter creates a unique filtration method. With varied density fibres, the dirt-holding capacity of the filter as well as its efficiency is greatly improved.

PERMABASE™ - ABS FLOOR

Permabase is a fully moulded floor that protects the under side of your spa from the elements.

SMART CONTROL PANEL

This user-friendly Smart Keypad utilises a computerised Digital Control System with colour LCD panel. Whilst using visible icons making control of the spa simple for the spa user, the keypad also features advanced functions making it WiFi ready and multi-lingual.

They penetrate to strengthen, moisturise and reduce wrinkles and fine lines. Microsilks is available on Santa Cruz, Nevis 33 & 45, Antigua/Captiva 33 & 52 and Grand Bahama/Grand Cayman 45/46. *Note: Not available with Footblasters. (See page 5 for more information).*

OZONE

Ozone destroys bacteria, viruses, spores and fungus, as well as other contaminants. Ozone enhances the performance of chlorine and bromine in your spa and allows you to use substantially smaller amounts of those chemicals to achieve and maintain sparkling, clean water. Every Island spa can have an ozonator installed for 24 hours of treatment.

PROPURE™ OZONE

This higher output ozone generator combined with vortex mixing chambers gives crystal clear water and requires even less chemicals than standard ozone. When combined with Artesian's Nature 2 technology, the spa water exceeds the EPA's standards for bottled drinking water.

DIAMOND AOP™

This revolutionary system combines Micro-filtration, high efficiency circulation, UV sterilisation, Ozone and Artesian's ProPure Mixing Chamber to create the most advanced oxidation process (AOP) for water purification. AOP produces an ultraviolet light inside a quartz chamber with the optimum wavelength designed to destroy and eliminate bacteria and other micro-organisms.

SPA FROG SYSTEM

The Spa Frog® Fresh Mineral Water In-Line System offers water care that is built into the hot tub with no touching or measuring chemicals. Simply replace the bromine and mineral cartridges when required.

ARTESIAN MUSIC EXPERIENCE STEREO SYSTEMS

ARTESIAN QUALITY

Every Artesian spa has a durable shell constructed of beautiful acrylic with our lifetime Diamondbond backing. Our jets rotate on bearings rather than plastic for ease of adjustment, and our pillows are a dyed-through, closed-cell foam to prevent cracking, discolouration, and water absorption.

PROGUARD™ COVER

The ProGuard™ has a 150mm to 100mm tapered high-density Dura-Core foam insert with 18-gauge galvanised steel c-channel beams and is capable of withstanding 270kg across the cover surface. *Note: Proguard Cover is an optional upgrade.*

It's easy to take care of your Lucite Spa - one of the glossiest, high quality surface materials available.
