ARTESIAN SPAS™
EXPERIENCE THE ULTIMATE

TIDALFIT BY ARTESIAN SPAS

SIMPLY OUTSTANDING

Built to the same world-class standards in quality that Artesian Spas are famous for, the TidalFit Exercise Pools are in a class of their own. The craftsmanship and stunning design of the TidalFit Spas are not the only compelling aspects, they are robust, energy efficient and offer unique options to cater for each individual taste. With five unique models, there is a TidalFit to suit everyone. Each model features its own individual swim system, each created with varying degrees of power and adjustability. In addition to this, you are able to customise your TidalFit by choosing your hydrotherapy and training equipment options. Further options include our revolutionary purification system for crystal clear water and our innovative stereos, WiFi spa control and lighting for the Ultimate Swim Spa Experience.

You get to pick the model and options that perfectly suits your requirements to have your very own bespoke TidalFit.

Combining Power with World Class Energy Efficiency

Redefining Craftsmanship & Performance

Unflinching Quality & Attention to Detail

A Class Leader in Hydrotherapy

Experience the Ultimate

“QUALITY, POWER, PERFORMANCE, THE TIDALFIT EXERCISE POOLS HAVE IT ALL!”

The Perfect Swim

Built to professional standards, TidalFit Exercise Pools are the ultimate way to swim and work out in the comfort of your own home. We have five unique models with different swim systems providing varying degrees of power to accommodate everyone, no matter what your swim strength.

The **ActivePlus EP-12** features a Dual Swim Jet system creating a medium current that is perfect for families to enjoy together. The **Premium EP-14** and **Pro EP-15** TidalFit models have Quad Swim Jets providing a stronger swim current that can be fully adjusted to halve the power, perfect for varying degrees of ability. Our **DT-13** and **NEW DTL-14** also feature a Quad Swim Jet system. By combining our world class exercise pool with a choice of hydrotherapy spa, we have integrated both into one unit to give you the ultimate swim spa experience.

For an even stronger swim, why not add the new **Variable Flow Swift Water Trainer** which is perfect for professional swim training.

Aquatic Training System

ROWING & STRENGTH TRAINING

- Rowing Bars

Smooth, low-impact, and non-load bearing, rowing spreads the exercise intensity evenly over the body's three major muscle groups: the torso, legs, and arms. This **even distribution of exercise** helps tone all muscles, instead of just one group.

- Resistant Cords, Clips, and Handles

Resistance cords are used in the TidalFit pool for curls, tricep extensions, chest presses, shoulder pulls, and back pulls. These upper body exercises are specifically designed to **build strength**.

AQUA TREADMILL

- Stationary Resistant Swim Tether

The resistance swimming tether training system adds dimension to the range of the TidalFit exercise options. Walking against the resistance of water increases the rate at which you **burn calories** and strengthen muscles.

Hydrotherapy & Innovation

Artesian Spas are famous for producing the ultimate in hydro-massage technology and the optional Hydrotherapy Systems found on the TidalFits are no different. Available on all models, these systems provide numerous Helix™ jets with their very own Hydrotherapy pump, driving deep into the muscle tissue for an unrivalled massage. This option is the perfect addition to relax your muscles and unwind following your workout session.

Variable Flow Swift Water Trainer

TidalFit's new **Variable Flow Swift Water Trainer (VFSWT)** incorporates an even more powerful **Swim System** containing true variable speed pumps and expertly designed jets to provide a balanced, stable swim current. This system allows a variety of swim options by varying swim resistance, simply by pushing a button on the Touch Screen LCD Panel. Swimming resistance can be set anywhere from **0% to 100%**. **Bespoke Interval Training** can be set by using the ten available swim programmes, which can be varied in time from 1 minute to 30 minutes and power from 0% to 100%. This allows the TidalFit to be used by beginners through to advanced swimmers.

You also have the option to add the new **Advanced Integrated Streaming Stereo**. Simply connect through Bluetooth with any smart device to instantly start enjoying your favourite songs.

With the new Variable Flow Swift Water Trainer option, your TidalFit comes fully equipped with:

Variable Flow Swift Water Trainer option for DT-13, DTL-14, EP-14 and EP-15: <ul style="list-style-type: none"> • 2 x 2.5HP True Variable Speed Swim Pumps with Built-in Speed Control • 4 x Directional 6in. Swim Jets • Built-in WiFi • Touch Screen LCD with multiple Programmable Swim Workout Options 	Advanced Integrated Streaming option on EP Models: <ul style="list-style-type: none"> • Fully Integrated Bluetooth, WiFi, App Streaming and Internet Radio, 4 x 3in. Speakers, Sub-woofer • Optional 2 x 3in. Patio Speakers 	Advanced Integrated Streaming option on DT/DTL Models: <ul style="list-style-type: none"> • Fully Integrated Bluetooth, WiFi, App Streaming and Internet Radio, 6 x 3in. DT DUAL TEMP EXERCISE POOL & SPA

The Perfect Partnership

TidalFit by Artesian Spas are proud to introduce a new unique concept for a Dual Temperature Swim Spa. For many years it has been difficult to find the perfect spa and exercise pool combination with limited choices available. The new TidalFit Dual Temp range overcomes this by combining a separate Exercise Pool with your choice of Hydrotherapy Spa, seamlessly integrated to create a 19-foot or 21-foot Dual Temp Swim Spa or a beautiful L-Shaped Dual Temp Swim Spa. Each side offers separate temperature, jet and lighting controls and offers all of the premium quality features found in our other TidalFit and Artesian Hydrotherapy Spas. There is even the option of having the TidalFit Dual Temp Swim Spa as a semi-in-ground version.

Dual Temp Exercise Pools

The DT-13 and DTL-14 Exercise Pools feature our unique Quad Swim Jet System as standard to provide a powerful and fully adjustable swim current. The Dual Temp Pools are also available with a variety of optional features including our new Variable Flow Swift Water Trainer, and Aquatic Training System featuring rowing bars, stretch cords and swim tether, ensuring everything you need for the perfect exercise pool.

Dual Temp Spa Selection

Artesian have expertly created three unique hot tub models to adjoin to the DT-13 and DTL-14:

- A compact 6-foot spa with 33 Helix™ Jets, Neck Blaster Jets, automatic 24 hour circulation filtration system, multi-colour LED lighting and LED Tranquility Fall water feature.
- Two larger 8-foot spas with a choice of 45 or 61 Helix™ Jets, Neck Blaster Jets, two Foot Blaster Jets, automatic 24 hour circulation filtration system, multi-colour LED lighting and LED Tranquility Fall water feature.

Each spa comes with a choice of optional features and has a wide range of colour options allowing you to create the perfect spa to match your TidalFit exercise pool.
